

# **Exhibit Hall 4E**

## **Loading Docks & Hand-Carried Freight**

### **Arch Loading Docks**

The truck service area and loading dock are accessed via a two-lane enclosed ramp on Hubbell Place, between Seneca and Pike Streets (1315 Hubbell Place).

The North Loading Dock contains 9 total bays, 8 of which have levelers. The dock clearance is 16' high. All bays can accommodate any vehicle meeting federal highway height and width guidelines.

### **Hand-Carried Freight**

SCC provides Hand-Carried Freight (HCF) areas at each building to accommodate small, privately operated vehicles. These areas are reserved to allow off-street access for exhibitors to transport materials to and from their exhibit areas.

#### **Arch North HCF**

Exhibitors must use the entrance on 9th Avenue between Pike Street and Pine Street (1521 9th Avenue). This area typically services Halls 4DEF and the Tahoma level. Height clearance at this entry is 9'8". Standard full-size van will clear this entry.
